**Subject:** Re: Gk Mine - retention/settling pond construction - liner specifications

I will get CAD on it asap. I will push them to get something with volumes by tomorrow.

Elliott,

This is a re-delivery of an earlier email that did not send. As we discussed last week, Weston needs to provide the necessary as-built pond drawings/dimensions, pond preparation specs, liner specs and related information for installation. You will need to coordinate with the liner vendor and ERRS.

The initial deliverable, which is needed by 0800 Friday, is to provide as-built dwgs to ERRS for the liner vendor liner quantity requirements.

Please confirm your understanding and ability to meet this need.

Thank you,

Steve
